bergh"...Also:Selected short subjects fromthe
Famous movie studio of William Eberhart Inc.

New Products worth watching for:

J & J PRODUCTS' is going to kit Tony Bonetti's original "Trouble-
maker"...No announcement on delivery date...This all balsa kit has
all pre-cut balsa parts, complete hardware package and 3-D Blue line
drawings with retract installation shown...The plane has a 58" wing
span and features a side mounted engine...Retail price to be \$59.95.

From Carl Goldberg comes a new line of low bounce wheels...These
rugged, lite-weight, treaded wheels will be offered in 7 sizes
ranging from 1 3/8" to 3 1/8"...These high Quality wheels are priced
competitively with Dubro and Kavan...My personal and strictly un-
authoritative testing of these superb wheels has revealed that they
are the smoothest, and truest running wheels for the money..
Prom VK Models comes the long awaited (Corbin Super Ace...This sport

flying plane from the era of the 30's is the latest offering from
our good friend Vern Krehibel...All balsa in construction, this
open cockpit ship features an ABS cowl and has a wing-span of 56".
Retail price will be \$32.50.....
Just arrived at Jerrys Hobby Supplies are the new DuBro Mufflers...
The new unique design is extremely lite-weight and should eliminate
the installation problems encountered with other conventional styles.
This muffler really shows promise and should fill the need for many
modellers.....Retail price is \$7.95..(only \$6.89 at Jerrys)

WHO's doing what: ::::: %

Orv Chatwood has started the construction of a VK Cherokee..This stable
and highly aero-batic plane will be an excellent full house trainer
for Orv and will unquestionably enhance his already very capable
flying ability.....

John Dschuden is putting on the final finishing touches on his brand
new Tidewater Enterprises—"PRONTO"—This low wing sport flying
plane is a real cutie and should be a real joy to fly....John says
that this is one of the finest kits he has ever built...The
quality of the wood and the pre-cut parts themselves really out-
standing in this 48" low priced airplane..... We may see the end
result of John's efforts at the meeting this friday nite.....

Wholesale

WHO'S DOING WHAT-CONT'd:

From the hangar of Tom Stones comes another flying warhorse..Tom is building a Top-Flite P-40 has it completed almost up to the covering stage as of this printing....This military aircraft follows in the footsteps or tred-prints or castor oil ehaust smoke or something of his PT-17 (scratch-built), two P-51 Mustangs, and one scratch built P-47 Thunderbolt....I wonder what his next scale airplane will be?????????????..This saga to be continued..... Also building a Top-Flite P-40 is Kevin McCormack...Received as a birthday gift, this fine aircraft should make a worthwhile contribution to the Father and Son Flying Team of Norm and Kevin.....

————— C L A S S I F I E D A D S —————

One Only--Well Built VK Nieuport 23.... Ready To Cover....You can steal this plane for only \$50.01 tax included....Call Norm McCormack at 941-5913.....
