Adjourn to the Valley View Restuarnt at dusk.....

AGENDA: FIYING\*\*\*FLYING\*\*\*FLYIING\*\*\*FLYING\*\*\*FLYING\*\*\*FLYING  
Plus an informal business meeting.....

NOTES OF GENERAL INTEREST

- 1) Please check the oil level in the "CHOPPER" when it is your turn to mow the County Field...The chopper motor uses any good grade of 10W - 30W Oil.....
- 2) Congradulations to Franklin Meyer Jr. for being named Valdictorian of the 1972 Graduating Class of EDEN CENTRAL HIGH SCHOOL.
- 3) For your comfort and convenience at the County Flying Site, The Flying Knights Construction Company has erected a magnificent bench. A spokesman from the newly formed company has guaranteed the bench to be firmly implanted in terra firma and is virtually unstealable... (Famous last words)
- 4) There will be a special suprise for all flyers who participate in the next "Fly for Fun" meet at the County Flying Site on Sunday July 16th.....
- 5) The Club ownership of the Sonictronics Starter has become an impossible situation.....It was the intent originally to make the starter available to all members when it was needed....The idea was good, but it just never : worked out.....In view of the present situation, the starter will be made available for sale at the next meeting on June 23, 1972... The starter motor which is valued at \$37.00 will be sold to the highest bidder over \$24.95 on Friday nite.....Bidding closes at 8:45PM Friday... If you are unable to attend the meeting and would like to make a bid by phone, call Jerry at 649-6216, prior to 6pm on Friday June 23, 1972.....
- 6) Special Note:::::During the last few months I have loaned out two engine test stands for the use of individuals.....In order to continue loaning these test stands out it would be sincerely appreciated if who ever has these stands would return them at the earliest possible date.. ( You're right. I've lost tract of who has them..)
