NEXT CLUB MEETING — MAY 31, 1974 at the Boston Library - 8:30 PM.

HILITES of the meeting of May 10, 1974--

Norm McCormack, our contest director, suggested that the club should consider providing a "First-Aid" service for the August "Fun-Fly". Since our club has a member who is more than qualified to perform these services it was suggested that this member would be asked to oversee this job.

Jerry Piscitello announced that a couple of the members suggested another event for the contest. The event would be called "Mail pick-up" and would consist of trying to pick up a crepe paper streamer stretched across two poles. Some further work will be done to devise a suitable hook to attach to the contestants plane.

More prize donations are still coming in for the "Fun-Fly" and Norm McCormack said that he will report on the value of all the gifts at the next meeting.

The 6ounty Field was discussed and several members suggested that the club should buy a load of creek gravel to repair the bad spots in the approach road.

The "NIKE-BASE" is reported to be in very bad condition and no-one seems to know what will be done to improve it.

Club membership keeps on growing and this time we want to welcome Art Guzic to the club.

The 50-50 club raffle was won by long time member, Don Naber.

Poor weather has apparently kept down the flying recently but there have been reports of several crashes, fly aways, landings in trees, lost ailerons, radio failures, sick engines, broken props, flat spins, missed landings, and even a report of members cutting down trees to retrieve their plane. So even with only a little flying there seems to be a lot happening?? ?

REMEMBER -- Next Meeting - MAY 31 st.
